Iain Peck for the Defendant, Responding Parties on the Motion

The motion for settlement approval and counsel fee approval is granted. As I said to counsel when today's hearing began, the legal work that was done on this matter including all of the allocation of various compensation categories was excellent. The overall settlement of \$5.5/\$6.0 million is fair and reasonable and very much in the best interests of the class. Counsel may begin the process of administration/arbitration immediately. I will sign the final Order as soon as it is available and I have returned from holidays.

“Edward Belobaba J.”
